

COVID-19

At Primary Pediatrics, our patient's safety is our first priority. We have made significant changes to our office procedures due to the Coronavirus pandemic to keep our patients, their families and our staff safe. Here are some examples of the ways we are putting your health and safety first:

All office staff are wearing masks and appropriate PPE as needed.

We are asking patients to wear a mask when coming to the office, if you do not have one, you will be provided with a mask when you arrive at the office.

All well visits are now being scheduled in the morning to prevent cross exposure with ill patients.

Ill patients and medication checks have an option of being scheduled as a telemedicine visit.

If an in person ill visit needs to be done, we are offering car visits when needed to minimize exposure in the building.

Please remember, that we, at Primary Pediatrics, are the best advocates for your child. We are here to work with you through these challenging times. We are continuing to offer well child exams, sports physicals, mental health services and vaccinations. Please reach out and let us know what you need during the CoVID 19 pandemic. We are here to keep your children safe and healthy.
